

Begin your journey to the slopes at the Ski Club of Ireland Kiltiernan– we can introduce you to both skiing and snowboarding, help you improve your technique and give you the confidence to advance to the red and black runs.

Are you a group or team leader looking for a new adventure activity?

An activity day with a difference for your group, whether you are on a work outing, birthday party, night out with friends or any kind of group, if there are more than 8 of you, you qualify for our special group rates. Group classes take place every weeknight and during the day at weekends and can cater for all standards of skier.

Corporate outings or a work social event

For a company social event, or a group interested in team building it is hard to find an activity that everyone can enjoy regardless of gender, age or fitness. Learning to ski and snowboard provides plenty of fun with friends and colleagues as everybody experiences a great new venture. We can organise a lesson for those who have never skied or snowboarded before, introducing them to a new sporting activity. For those who know how to ski or snowboard, they can learn ways to improve technique for their next time on snow and it might even encourage them to see what the Ski Club has to offer during the winter season, to get ski fit for their next holiday.

Family outings with a difference

At the weekends we cater for a family ski lesson, children age 8 upwards can try out skiing with their parents, or extended family. A family ski voucher is an ideal gift to give a family and we will tailor it to their requirements, and it will create a great day out experiencing a new adventure together. Many families who visit us just to try out skiing return, some have said it was their “best day out together” doing something active, healthy and with lots of fun. It is a great idea if you want to give someone who has everything a gift. Gift Voucher can be purchased for a “family day out skiing at Ski Club of Ireland”.

Having a birthday party with a group of friends?

We have three different activities to have fun for your party. There is skiing, snowboarding or tubing. Tubing has been a big hit with all age groups, it is simple to do, simple to learn and great fun. Again, is got the thumbs up as being the “best day out together with family and friends”. We can combine skiing and tubing so as to give one a taste of both. Snowboarding parties have been particularly popular on Sunday evenings for the “20 and 30 somethings”.

Youth and Adventure Groups

What better activity is there for youths and those seeking outdoor adventure? Besides learning a skill that will always be useful, it makes a great day out with a lot of satisfaction achieved from a good work out on the slopes. Many youth groups such as Scouts, Girl guides, Sea scouts and for the last few seasons both camogie teams and Meet up groups have visited us to learn a new skill. They come to Kiltiernan and all testify to having enjoyed the challenge and had a great experience learning how to ski or snowboard.
